

# Gynecology

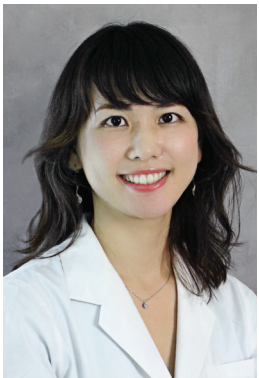

Promoting And Protecting Women's Health

A Caring Approach To Your Healthcare

The cyclical nature of the female reproductive system and its relationship to the well-being of the whole body makes it central to women's health. Gynecology deals with the health and function of women's bodies with a special focus on the reproductive organs, extending throughout the changes in life. Family Medical Practice provides expert treatment, procedures and services for a range of gynecological issues:

- Annual screening/HPV screening/Pap smear
- Colposcopy/Biopsy
- Premalignant gynecological conditions
- Menstruation irregularities
- Fibroids/Myomas
- Endometriosis
- Pelvic inflammatory diseases & abscesses
- Polycystic ovarian syndrome
- Vaginal infections
- Sexually transmitted infections
- Pelvic pain conditions
- Hormone replacement therapy (HRT)
- Controlling menstruation
- Contraception counseling
- Infertility assessments
- Menopause
- Support in cases of emergency

## INTRODUCING NEW Gynecologist

### Dr. Nana Akino

Having been interested in the human body since her days in junior high school, Dr. Nana's medical studies in gynecology and the aging process in women inspired her to conduct in-depth research on counteracting the effects of aging on the ovaries during her Ph.D. studies.

Dr. Nana is particularly interested in supporting women's health, reproductive health and all gynecological issues, including hormone and anti-aging therapies. She hopes to offer both foreign and Vietnamese women a sense of security and happiness through her experience, knowledge and skills in the field.

Your health. Our care.
